INTERFERENCE SEARCHED			
Class	Sub.	Date	Exmr.

The image is a vertical, high-contrast scan. The left half is a bright, textured surface, possibly a piece of metal or stone, showing significant wear, scratches, and a grainy texture. The right half is a solid, deep black area, creating a stark contrast with the left side. The overall appearance is that of a damaged or aged object, perhaps a book cover or a piece of machinery, captured in a very high-contrast, almost binary format.
